Part 2 – important plant

- **What it is;** Chinese cabbage
- **What it looks like;** oval shape, light green
- **Where you have seen this plant;** everywhere, and aunt's house
- **Why you like it;** goes well with other food, important for Korean people

IELTS SPEAKING**2017년 하반기 문제****Part 2 – important plant sample answer**

Well, I think the most important vegetable in Korea is Chinese cabbage. It's used in almost every Korean cuisine.

IELTS SPEAKING**2017년 하반기 문제****Part 2 – important plant sample answer**

It looks like a cabbage but it's more like oval shape.

There are lots of leaves so people tear the outer bits out and eat the inner bits. Normally it's pale green and yellow in colour.

Part 2 – important plant sample answer

It can be seen commonly since there are lots of markets and supermarkets where sell Chinese cabbages. Also in my aunt's house, she grows lots of it in her farm, so I get to see it whenever I visit her. Sometimes I help her harvesting them, it's really difficult though.

Part 2 – important plant sample answer

Actually it's my favourite vegetable and I really like eating it. It goes well with other vegetables or meat, and it tastes nice when it's raw or cooked. It tastes the best in autumn and winter, so I always buy it and eat it in every meal I have.

Also it's quite important vegetable for Korean people. People make Kimchi with Chinese cabbages, which is famous traditional food in Korea, and it's widely used in many Korean cuisines. And of course, it's good for health, too. So I really like it.

Part 3 – Plants

- Where do Korean people grow plants?

If they have a garden in their homes, they would do it there. Like my aunt, there's a big garden in her house so she grows lots of vegetables, plants, and flowers. Or, sometimes people buy flower pots and grow small plants in their houses. Also roof-top gardens are becoming popular in Korea.

IELTS SPEAKING**2017년 하반기 문제****Part 3 – Plants**

- What is the main plant in your country?
 - Rice – people eat rice every day
 - Chinese cabbages – very commonly used

IELTS SPEAKING**2017년 하반기 문제****Part 3 – Plants**

- What is the main plant in your country?

Rice, I think. It's main food that most Korean people eat, and many farmers grow it in the countryside. And many people grow chilies, Chinese cabbages, and other vegetables which are commonly used for making Korean food.
