IELTS Writing

2018년 5월 19일 문제

Some people believe that the range of technology available to individuals is increasing the gap between rich people and poor people. Others say that it is having the opposite effect. Discuss both views and give your opinion.

IELTS Writing

Some people's opinion – various technology available today widens the gap between rich and poor.

- **Only rich people can pursue luxury lifestyle**

It is commonly seen that products with the latest technology is very expensive. The cost of advanced technology is unaffordable for the poor, and this phenomenon increases the gap between rich and poor.

IELTS Writing

Some people's opinion – various technology available today widens the gap between rich and poor.

- **Only the rich becomes wealthier with developed technology**

While rich people can pursue convenient lifestyle by using a variety of technology which is normally expensive such as medical services and equipment, the poor cannot ensure their quality of living.

IELTS Writing

Others' opinion – opposite effects can be shown.

- **People in whatever financial status can be educated equally**

Some technological advancement like the Internet enable people to receive education conveniently. There are a huge amount information which are available online, and people can access it regardless of their financial status.

IELTS Writing

Others' opinion – opposite effects can be shown.

- **Development in aviation has allowed all people to travel overseas frequently**

These days, there are many airlines which sell cheap flight tickets, and this factor made people to travel abroad whenever they are available.

IELTS Writing
